PERSONAL STATEMENT

My name is Mai Huynh. Current I'm working as a front-end developer, and on the way to chase my dream of being a full-stack website developer. I love working with the computer to incourage innovations based on the technology development.

"Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did do. So throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails. Explore. Dream. Discover."
